

MHBE Apple Computers IFB (Solicitation#: BPM029210)
Questions – Answers #1

1. Question #1 Please let us know if substitute specifications are acceptable instead of the ones listed out in IFB for the 16-inch MacBook Pro Space Gray (M1).

Answer – We cannot go with substitution. We didn't make any provision in the Scope Of Work for that scenario as we need the exact specs.

2. Question #2 On the spec for the 20 MacBooks gray, are you sure about the 24 gpu spec? After looking and looking and looking, I found a 16 gpu, another 16 and a 32. I have not seen a MacBook with 24 gpu. Can you verify and clarify this please?

Answer – The following link at Apple allows one to select the spec and has the 24 GPU option as well:
